HYDROBIOLOGIA
Volume 443, 15 January 2001

Temporal and spatial distribution of the baetid *Afroptilum sudafricanum* in the sediment surface of a tropical stream
Jude Mutuku Mathooko 1–8

Leaf litter transport and retention in a tropical Rift Valley stream: an experimental approach
Jude Mutuku Mathooko, George Ogendi Morara, Maria Leichtfried 9–18

Activity of cyanobacterial and algal odor compounds found in lake waters on green alga *Chlorella pyrenoidosa* growth
Miyoshi Ikawa, John J. Sasner, James F. Haney 19–22

Expansion of the red alga *Grateloupia doryphora* along the coasts of Brittany (France)
C. Simon, E. Ar Gall, E. Deslandes 23–29

Aquatic vegetation and trophic condition of Cape Cod (Massachusetts, U.S.A.) kettle ponds
Charles T. Roman, Nels E. Barrett, John W. Portnoy 31–42

What factors control planktonic ciliates during summer in a highly eutrophic lake?
Krzysztof Wiackowski, Anne-Mari Ventelä, Marianne Moilanen, Vesa Saarikari, Kristiina Vuorio, Jouko Sarvala 43–57

Uncoupling of chlorophyll and nutrients in lakes – possible reasons, expected consequences
Lech Kufel 59–67

Trophic diversity within the eastern Weddell Sea amphipod community
Patrick Dauby, Yves Scailteur, Claude De Broyer 69–86

Epibiontic and endobiontic polychaetes of *Geodia cydonium* (Porifera, Demospongiae) from the Mediterranean Sea
M. Gherardi, A. Giangrande, G. Corriero 87–101

Systematic revision of the genus *Petromica* Topsent (Demospongiae: Halichondrida), with a new species from the southwestern Atlantic
Guilherme Muricy, Eduardo Hajdu, José Valter Minervino, Ana Verena Madeira, Solange Peixinho 103–128

Laboratory study of the grass shrimp feeding preferences
M. Letizia Costantini, Loreto Rossi 129–136

Temporal and spatial variability in the heavy-metal content of *Dreissena polymorpha* (Pallas) (Mollusca: Bivalvia) from the Kleines Haff (northeastern Germany)
Lutz Wiesner, Burkhart Günther, Christiane Fenske 137–145

Effects of satiation on feeding and swimming behaviour of planktivores
Takashi Asaeda, Tilak Priyadarshana, Jagath Manatunge 147–157

A method for lake ecosystem health assessment: an Ecological Modeling Method (EMM) and its application
Fu-Liu Xu, Richard W. Dawson, Shu Tao, Jun Cao, Ben-Gang Li 159–175

Assessing ecosystem integrity of restored prairie wetlands from species production–diversity relationships
Paul M. Mayer, Susan M. Galatowitsch 177–185

***Eichhornia crassipes*-based tertiary treatment of Kraft pulp mill effluents in Chilean Central Region**
Victor Dellarossa, Jaime Céspedes, Claudio Zaror 187–191

Contribution of Ciliated Microprotozoans and Dinoflagellates to the diet of three Copepod species in the Bay of Biscay
Dorothée Vincent, Hans Julian Hartmann 193–204

Nitrogen retention in wetlands, lakes and rivers
D.L. Saunders, J. Kalff 205–212

Modern benthic diatom distribution in a hypersaline coastal lagoon: the Lagoa de Araruama (R.J.), Brazil
Florence Sylvestre, Beatriz Beck-Eichler, Wania Duleba, Jean-Pierre Debenay 213–231
